

Please give me a break! Satellite Radio is the best thing ever. Period! Tell NAB to get a new life and join the technology or get the hell out of business... but don't limit my choices to feather your nest. THIS IS AMERICA... not IRAN. Please give me a break and vote for SATELLITE RADIO and local traffic/weather. The service is quite refreshing. I NEVER listened to the AM-FM radio anyway... way to stupid program material. NO wonder it's FREE. I have a choice with SATELLITE RADIO. It is the American way. Thank you very much, I will pay to have what I choose. Please vote for my choice to choose and do not limit my access to new technology. Reject NAB's petition 04-160! signed, Bill Dodenhoff
